Stringing Material

## Instructions

Finished size: 6 3/8". To adjust the size, add or subtract rows worked, and adjust the color pattern accordingly for the ends.

1. Before you begin, watch the video: How to do Flat Even Count Peyote Stitch. This video will demonstrate the stitch you will use to make this bracelet.
2. Using size 10/0 Delica seed beads in aqua luster, matte gold, and white, follow the pattern in the first chart to complete the 24 bead wide zig zag design, working from the bottom of the pattern up. Repeat the pattern until you have completed 151 rows.
3. Watch the video: How to Add a Beaded Toggle Clasp to a Peyote Stitch Bracelet. This video will walk you through the steps to add the clasp to your bracelet. The added pieces for the clasp are shown broken out into sections in the second and third charts. Be sure to follow them to make your toggle bar and clasp opening match the pattern of your bracelet.
4. After completing the 151st row of peyote stitch, follow the pattern for the clasp opening to add five more rows only 6 beads wide to the right side of your bracelet.
5. Starting from top of the pattern and working down, create another piece of peyote stitch weaving 24 beads wide and 10 rows long. Then follow the pattern to add five more rows only 6 beads wide to the left side of this piece (the left side when aligned with the pattern). Zip this piece to the top of the bracelet, matching the pattern, as shown in the video. Then zip closed the other side of the opening.
6. Go back to the beginning of your bracelet. Weave into the center 4 beads of the first row and add 6 rows 4 beads wide, following the pattern in the last chart from the top down.
7. Create a new piece of weaving 18 beads wide and 10 rows long, following the pattern. Zip the toggle bar closed as shown in the video, and then attach it to the bracelet as demonstrated.
8. Tie off and weave in all of your thread tails.
