Instructions

These instructions will give you a bracelet that is 7 inches. Adjust by adding or removing crystal beads from each strand respectively.

1. Cut off three lengths of beading wire 10 inches each.
2. Take one strand, place a bead stopper on one end. String 7 crystal beads, 1 noodle bead, 8 crystal beads, 1 noodle bead and 7 crystal beads. Set aside.
3. Taking another strand, place a bead stopper on one end. String 16 crystal beads, 1 noodle bead, and 16 crystal beads. Set aside.
4. Repeat the above step to create a second identical strand.
5. Stack the strands in this order for the next step: strand with 1 noodle bead, strand with 2 noodle beads, strand with 1 noodle bead.
6. To each strand string on one crimp tube, thread it through one closed jump ring and back down through the crimp tube. Pull snug and crimp the crimp tube. Snip off any excess wire. Add one crimp cover over each crimp tube.
7. Repeat on the other side of each strand.
8. Open one jump ring and attach it to one closed jump ring and one end of the magnetic clasp. Close the jump ring. Repeat for the other side of the bracelet.
9. All done.
