

These instructions will give you a 7 inch bracelet. To adjust the length, modify the length of square knotting evenly on both ends.

1. Cut two lengths of waxed cotton cord, 10 feet and 4 feet.
2. Fold each length in half and match up the centers. Tie an **overhand knot** about 1/2 from the center forming a loop.
3. Place the loop in the top of the **macrame board**, the shorter ends in the bottom center notch.
4. Using the two longer pieces you will make **macrame square knots** for 2 inches.
5. Slide on the "B" bead onto the two center strands, make two more square knots.
6. Repeat the above step with the letters: "R", "E", "A", "T", "H", and "E".
7. Make square knots for another 2 inches.
8. Take the two outer strands and thread them through the button.
9. Gather all four strands and tie an overhand knot, securing the button.
10. Add a dab of Super New Glue to the knot and trim the ends.
11. All done!

WHAT YOU'LL NEED: (scroll down for purchase options)

Personalize this bracelet with your favorite **button** and **alphabet beads**. This bracelet uses **waxed cotton cord**.
