Instructions

1. For instructions please watch our video: [How to Use the Endless Loom](#). In this video you will see how to construct this bracelet from start to finish.
2. Using the same technique you saw in the video you will attach the clasp in the same manner. This project is 11 beads wide. Once you have your first two rows of square stitch you will add the clasp by threading thru the first row and coming up between the fourth and fifth bead, adding one bead, going through the loop and back down through the bead you just added and down through the fifth bead. Repeat this at the seventh and eighth bead to attach the other loop of the clasp.
3. Now continue working as shown in the video.
4. Some other videos that may be helpful are: [How to Tie Off and Weave in Your Thread](#) and [How to Do Square Stitch Bead Weaving](#).
5. Also please note that the instructions that came with your Endless Loom will help guide you in making your bracelet.
