Beadsmith Jeweller's Micro Pliers Chain Nose Flat Nose, [XTL-5514] Beadsmith Jewelry Fine

Round Nose Micro Pliers

Instructions

Looking at the bangle, there is a side where there are two stud rivets that are closed. I will use these as a point of reference for these instructions.

1. Open one jump ring and attach it to the first open eyelet directly to the left of the center rivets. Attach one hole of the triangle link. Close the jump ring.
2. Move one eyelet to the left and open one jump ring, attach the second hole of the triangle link. Close the jump ring.
3. Next, move two eyelets to the left. Open one jump ring, attach the heart charm to the jump ring, and link one end link of the length of chain. Close the jump ring.
4. Stringing the chain along the bangle, move to the right by one eyelet. Using a jump ring attach the 13th link to the bangle. Close the jump ring.
5. Move to the right and using a jump ring attach the 19th link of the chain to the bottom hole of the triangle link. Close the jump ring.

6. Move to the right by one eyelet. Using a jump ring attach the 28th link to the bangle. Close the jump ring.

7. Move to the right by one eyelet. Using a jump ring attach the 41st link to the bangle. Close the jump ring.

8. Move to the right by one eyelet. You will be back at the heart charm. Open the jump ring once again and attach the 52nd link to the bangle, behind the heart charm. Close the jump ring.

9. Cut off any remaining chain.

Note: You will have additional chain, so you can adjust the lengths within the bangle accordingly.
