SKU: PND-5624

Project uses 1 piece

Genuine Leather Cord, Round 1.5mm, By the Yard, White

SKU: CHY-1504

Project uses 1 Yard

G S Hypo Cement Precise Applicator Essential!

SKU: XTL-1001

Project uses 1 piece

Recommended Tools:

[XTL-3250] BeadSmith Beading Needles Medium Flexible Twisted (50!), [XTL-5614]

BeadSmith Tools, Thread Snips 4.25 Inches Long, 1 Piece

Instructions

Begin by watching our video: [How to Make a WrapIt Loom Bracelet with Leather Cord and Two Hole Beads.](#)

1. From what you learned in the video, set up the loom with the the leather cord and button attached. Tie your knots and place it into the loom.
2. Add a twisted wire needle and tie on your griffin silk as seen in the video.
3. Take one DiamonDuo and take both strands and go though the top hole in the opposite direction. Wrap the griffin silk around the leather cord, to prepare for row two.
4. For row two, string on one top hole of a DiamonDuo on to each strand of silk then go though in opposite directions through the bottom hole of the DiamonDuo that is already on the bracelet. String though the two you just added, in opposite direction. So now you have threads going through both holes of the first one and the second pass of threads is going through three beads, two outside DiamonDuos on the top hole and the bottom hole of the first DiamonDuo. Wrap around the leather to prepare for the next row.
5. For row three you will add one DiamonDuo in between the last two you just strung.
6. Continue to add the DiamonDuos in this manner. A row of one then a row of two. (Please see photo for reference)
7. Tie off the Griffin Silk as seen in the video. Adding a dab of GS Hypo Cement is recommended on your final knot so that it will not fray.
