## Instructions

1. This loom project uses the Rick's Beading Loom. Please watch our video for set up instruction.

2. For this pattern you will need 11 warp threads. This pattern will give you a 6.25 inch bracelet, however the pattern is set up so that it can continue as long as you like. Set up your loom as seen in the video.
3. Once your loom is set up, follow the pattern to complete the length of the bracelet. As you work you will need to tie off and add new thread.
4. Once you have reached the end of the bracelet. Take it off the loom and weave in all your threads.
5. Next, please watch our video: How to Use Slide End Tubes for Miyuki Delica Bead Weaving. From what you learned in the video, attach the slide end clasps to the ends of your loom work.
6. Open one jump ring and attach it to one loop on the miyuki slide end and to one end of the magnetic clasp. Close the jump ring. Repeat on the other side to finish the clasp.
