Instructions

This bracelet measures approximately 6 inches. To modify the length, simply adjust the length woven respectively.

1. Please watch our video: How to Do Flat Odd-Count Peyote Stitch. From what you learned in the video cut a length of thread you are comfortable working with. You will need to tie off and add new thread as you work. Begin your odd count peyote. For this pattern it is random with no colors touching each other.
2. Weave until you have your desired length. Then to finish this bracelet please watch our video: How to Attach a TierraCast Magnetic Clasp to Bead Weaving. Tie off and weave in your tails.
