Instructions

Please watch our video: [How to Embellish an Adjustable Slider Clasp Bracelet](#). In this video you will see this bracelet and a version similar to this. Follow along with the instructions below to complete this project.

1. Begin by stringing three gemstone chips onto one head pin. Make a wrapped wire loop. Set aside. Repeat once more.
2. Then string three gemstone chips on to one eye pin. Make a simple wire loop. Set aside. Repeat twice more.
3. Create a link of all three eye pins by opening and closing the loops like jump rings. Then attach this length to the two jump rings attached to the bracelet.
4. Finally, open the jump rings at the ends of the bracelet and attach the wrapped wire loop components.
