Beading Loom Craft Kit, Includes Beads, Nylon Cord & Instructions, Makes up to Five

Bracelets, [XTL-3251] The Beadsmith Beading Needles, Flexible Twisted Wire FINE, 50 Pack

## Instructions

This bracelet measures approximately 7 inches. To modify the length, simply adjust the length of cord and beads loomed respectively.

1. If you have not worked with the Wrapit Loom before, please watch our video: How to Use the Wrapitt Loom by Rainbow Loom.
2. Fold the leather in half, string on the button and tie an overhand knot up close to the button.
3. Move 6.5 inches down the leather and tie another overhand knot. Move about one inch down, enough space for the button to fit through and tie another knot.
4. Place the bracelet in the loom with the button at the front and the space between the two back knots into the back of the loom.
5. Set up your griffin silk as seen in the above video. Attach a twisted wire needle to the end without the needle.
6. Once you have your cords ready to go begin by adding one seed bead for the first row. For the second row, add two seed beads. For the third row add three seed beads.
7. For your next row add one hole of one green tila bead. Then wrap around the leather once again and go through the second hole of the tila bead.
8. For the next row, add two cream seed beads and one half tila bead. Wrap around the leather then repeat for the second hole of the half tila and two more seed beads.
9. You will then repeat the above step but reverse the tila and seed beads to create a stepped effect. (Please see photo for reference)
10. For your next row begin repeating the pattern by adding one hole of one green tila bead. Then wrap around the leather once again and go through the second hole of the tila bead. Then the two gold half tiles with seed beads. Repeat this pattern until you have added 11 green tila beads. Once you have added all of your beads, taper off the end the same as the beginning. A row of three seed beads, a row of two and a row of one.
11. Finish off the cords as seen in the video. Tie them off and add a dab of glue to the knots. Trim the ends and you're all done.

If you loose or break your needle please watch our video: How to Replace a Broken Needle on Griffin Silk.
