Instructions

1. To see how to complete this project from start to finish, please watch our video: How to Make a Beaded Hemp Bracelet with Macrame Square Knots. In this video you will learn how to do macrame square knots and add beads to make this bracelet. This design is easy to adjust the size. Simply stop adding beads when you've reached your desired length.
2. For this yellow design, use the hemp cord that has a green tint to it. It should be third from the top on the hemp cord card. Any color will work, but that is what is shown in the project photo.
