Instructions

1. Look through your Czech glass seed bead mix, and pick out 6 pearl colored seed beads. Also take out 6 black bicone beads.

2. Slide one pearl colored seed bead onto a silver plated head pin and create a wrapped wire loop using your round nose pliers. Snip off any excess wire with your flush cutters.

3. Repeat the process of making wrapped wire loops with each of your beads. Set aside.

4. Using your chain nose pliers, open the larger jump ring that is already on your bangle bracelet and slide on the loop from your Ying & Yang charm and close.

5. Next, open a jump ring with your chain nose pliers and slide on the loops from 1 black bead dangle and 1 pearl bead dangle. Before closing, slide the jump ring onto the left side of your Ying & Yang charm and close.

6. Continue adding bead dangles via their jump rings, remembering to add 1 black and 1 pearl colored bead dangle onto each jump ring. Attach 3 onto each side of your Ying & Yang charm and close.

7. That's it!
