### Recommended Tools:

[XTL-5700] Fiskars 5 Precision Tip Scissors - Super Sharp

### Instructions

1. Using scissors, cut out the circular "tree with path" image from your Nunn Design collage sheet.
2. Place a dab of Diamond Glaze glue into the bezel of your pin, and press the collage image into the bezel with the top of the image aligned with the post of the pin.
3. Following the technique shown in our video on how to make a glass dome paperweight, remove any fingerprints from the bottom of your glass dome cabochon. Apply a small amount of Diamond Glaze to the back of the cabochon, and then flip it over and place it onto the collage image. Press the cabochon firmly into place to squeeze out any air bubbles in the glue.
4. Wait several hours for the glue to dry clear, keeping the pin propped upright. Then your pin is ready to wear!
