Instructions:

Remember to double these instructions to create your matched pair of earrings.

1. Place a 22k gold plated bead aligner, a green with blue flowers ceramic cylinder bead, and another bead aligner onto a 2", 21 gauge 22k gold plated head pin.
2. Create a wrapped wire loop after the top bead aligner.
3. Open a 22k gold kidney wire ear hook and slide your earring onto it using the wrapped wire loop. Bring it down to the little dip at the bottom of the kidney hook.

Variations

Use crystal bicone beads instead of bead aligners to give these earrings a fancier look. You can also play with the size of the kidney hook to give them a different feel.

When substituting in items, pay attention to sizes and styles to make sure all your pieces will fit together.
