### Instructions

By following the instructions below you will make one earring. Repeat all instructions for the second earring.

1. Take one head pin and a pair of round nose pliers, create a small spiral of three coils near the ball end. Thread the head pin with the coils on the end up through one orange petal and one black petal facing down.
2. Make a wrapped wire loop. Trim the excess wire with your flush cutters.
3. Open the loop of the earring finding, same way you would a jump ring. Attach the earring finding to the wrapped wire loop. Close the loop.
4. All done!
