Instructions

1. Begin by watching our video: How to Use Ice Resin. Then Watch the video: How to Make Colorful Rings with 2-Part Resin and Pigment.
2. From what you learned in the videos, mix part A and B of your resin. Once they are combined, add a few drops of white pigment.
3. Once combined, carefully drip the resin into the circle bezels until they are filled but not domed.

4. Set aside to cure for at least 24-48 hours.
5. By following the instructions below you will make one earring. Repeat all instructions to make the second earring.
6. From the chain, separate three circle links.
7. Open one jump ring and attach one separated chain link to one hole in the triangle. Close the jump ring. Repeat for the other three links.
8. To one link, open another jump ring and attach the circle bezel to the other end of this link. Close the jump ring.
9. For the remaining two links add one jump ring to the ends of the link. Close the jump ring.
10. Open one jump ring, attach this ring to the two you just attached and add one earring finding to this jump ring before closing it. Close the jump ring.
11. All done!
