Project uses 1 piece

Recommended Tools:

[XTL-5511] Beadsmith Jeweller's Micro Pliers Chain Nose Flat Nose, [XTL-5514] Beadsmith Jewelry Fine Round Nose Micro Pliers

Instructions

By following the instructions below you will make one earring. Repeat all instructions to make the second earring. You will also need a toothpick or scrap of wire for this project.

1. Using a toothpick or scrap of wire place a dab of glue into the pendant setting and place one buttercup rivoli into the setting. Set aside and allow to dry.
2. Place a dab of glue, into two of the link settings. Place one buttercup into one, and place one majestic blue into the other. Set aside and allow to dry.
3. Allow the settings to dry for at least 15 minutes before continuing.
4. Next, open one jump ring and attach it to the pendant setting and to one blue link. Close the jump ring.
5. Open another jump ring and attach it to the link you just added and to one buttercup link. Close the jump ring.
6. Open one more jump ring to attach the earring post to the last buttercup link that you added. Close the jump ring.
7. We recommend that you allow the earrings to dry for at least 24 hours before wearing.
