

Coral Me Happy Earrings

Project E2311

Kat Silvia

A summery coral pink is the star of these happy little earrings. The colorful resin creates an enameled look that is so easy to personalize with your favorite colors.

CASTIN CRAFT Casting Epoxy Resin Opaque Red Pigment Dye 1 Oz

SKU: TRC-85

Project uses 1 piece

Recommended Tools:

[TRC-604] ICE Resin, Mixing Cups & White Stir Sticks, 20 Pack

Instructions

You will also need toothpicks and popsicle sticks for this project.

1. To see an example of a similar project, please watch our video: How to Make a Pair of Resin Earrings featuring Nunn Design Earring Bezels. In this video you will learn how to mix and colorize your resin to make a pair of earrings. You will also see some helpful tips for keeping your earrings level as they cure.
2. From what you learned in the video, set up your earrings on a box or something to keep them level. Mix your resin and separate the amount you want to color into a cup; about 1 tsp. Slowly add a drop of red and a drop of white. If you want a lighter color, you can add a little bit more of the white.
3. Once you have achieved your desired color use a popsicle stick add the resin to the bezels. Allow to cure about 24 hours.
