

Endless Evergreen Earrings

Project E2393

Kat Silvia

Ever wondered if you could make endlessly interchangeable earrings? Here is a solution! By making a wrapped wire loop, you can switch out the danglers when you use a kidney earring hook without any damage to the wire.

Instructions

By following the instructions below you will make one earring. Repeat all instructions to make the second earring.

1. To see how to complete this project from start to finish, please watch our video: [How to Make Endlessly Interchangeable Earrings using Kidney Earring Hooks](#). In this video you will learn how to make a wrapped wire loop and attach it to a kidney earring hook. This technique allows you to make lots of little danglers that you can switch out without hurting the earring hook.
