Project uses 2 pieces

Recommended Tools:

[XTL-5600] Xuron Sharp Flush Cutter Pliers - Wire/Soft Flex, [XTL-5514] Beadsmith Jewelry

Fine Round Nose Micro Pliers

Instructions

By following the instructions below, you will make one earring. Repeat all instructions to make the second earring.

1. Using your flush cutters, cut one 4" length of wire.
2. Thread the wire through the loop of your premade tassel. Watch the video on [How to Add a Jump Ring to Premade Tassels](#) for a similar technique.
3. Slide the tassel onto the center of your wire length and messily wrap the wire around the bottom portion of your branch finding, making sure the tassel is hanging right beneath the the branch. Snip off any excess wire with your flush cutters. See photo for assistance.
4. Next, cut another 4" length of wire with your flush cutters.
5. Make a messy wire wrap onto the top portion of your branch finding. See how to do this in our [How to Wire Wrap a Briolette](#) video. Snip off any excess wire using your flush cutters.
6. Open an earring hook (how you would a jump ring) and slide it through the loop of your wrapped wire loop and close.
7. You're done!
