Instructions

By following the instructions below you will make one earring. Repeat all instructions to make the second earring.

1. Place a dab of E6000 glue into the bezel of one earring finding. Place one hematite faux pearl cabochon into the bezel and press it gently into the glue. Allow the glue to dry for several hours before proceeding.
2. Using flush cutters, cut two lengths of antiqued silver chain: 2 inches and 3 inches.
3. Open a jump ring. Slide it through the first link of both lengths of chain, and also slide it through the loop below the bezel on your earring finding. Close

the jump ring.

4. Open another jump ring. Slide it through the last link of both lengths of chain, and also slide it through one of the loops on one earring back. Close the jump ring.

5. Enjoy your earrings!
