Instructions

These instructions will give you a necklace that is 18 Inches. To modify the length, adjust the number of strung beads. If you would like a longer necklace you will need additional beads and bead caps for this project.

1. Begin by cutting 24 inches of beading wire. Place a bead stopper about 2 inches from one end.
2. String on one bead cap, one wood bead and one bead cap so that the two bead caps are surrounding the wood bead. Repeat this step 49 more times.
3. String on one crimp tube. Thread the wire up through one closed jump ring and back down into the crimp tube. Pull snug and crimp the crimp tube. Snip any excess wire. Place a crimp cover over the crimp tube and close the crimp cover.
4. Move to the other end of the necklace, remove the bead stopper and repeat the above step.
5. On to one closed jump ring, attach one open jump ring and one lobster clasp. Close the jump ring.
6. To the other end you will make a link of eight jump rings by opening and closing them. Attach the last jump ring to the closed jump ring at the end of the necklace.
7. All done!
