Instructions

1. The first step to making this necklace is to make sure that the chain ends are trimmed properly so that you have a nice clean loop to attach a jump ring to. To see how to trim the ends, please watch the video: How to Properly Cut Gemstone Chain.
2. Open a jump ring and attach it to one end of your chain. Close the jump ring.
3. On the other side of the chain, attach a jump ring and close it. Open another jump ring and link onto it the jump ring you just attached as well as a lobster clasp. Close the jump ring.
4. Take your now finished gemstone necklace and fold it in half so you can find the mid-way point. At the mid way point attach a jump ring and also link onto it the tiger pendant. Close the jump ring.
