

Please note that due to the memory wire's stiffness, it can be hard to make a complete loop on the ends with no little gap. The chain for this necklace is delicate. To prevent it from slipping off, you can add a little E6000 glue into the gap. Just a little. It will dry clear and prevent any slippage if you have trouble closing the loops.

1. To make this design, please watch the video: [How to Make a Necklace with a Memory Wire Focal](#).
2. The video will teach you everything you need to know to make this project. Please make your necklace according to what you learned in the video. Enjoy!
