

You can use either round nose pliers or wire looping pliers to make your simple wire loops for this project. Note that this projects use bicone beads instead of the beads shown in the photo.

1. Onto your head pin, please place the following beads: 1 large bicone bead, 1 teddy bear bead, 1 small bicone bead.
2. After the last bead, **create a simple wire loop**. Trim off excess wire.
3. Open the loop at the base of your earring hook, the same way you would **open a jump ring**, and link onto it the loop of the bead segment you just made. Close the loop.
4. Repeat steps 1 - 3 to make your matching earring. Hugs!
