SKU: XCR-4361

Project uses 6 feet

Paracord / Parachute Cord Black Plastic Buckles 15mm / 0.6 Inches (5 Sets)

SKU: FCO-9820

Project uses 1 piece

### Recommended Tools:

[XTL-5600] Xuron Sharp Flush Cutter Pliers - Wire/Soft Flex

### Instructions

You can use a pair of flush cutters or a strong sharp pair of scissors to cut through your paracord. You will also need a cheap plastic lighter to complete

this project. You'll want a plain one with no shrink wrap, and you'll want one you don't mind getting wrecked.

1. Watch the instructional video: How to Make a Basic Cobra Paracord Bracelet. As explained in the video, you'll need about a foot of each color of cord for each inch of knotting. Follow the instructions in the video to determine how much cord and knotting you'll need.
2. Cut a length of neon pink paracord and a length of black paracord to the measurements that you have established.
3. Follow the instructions given in the video to attach your cords to a .60" black plastic buckle and complete your knotting.
4. Finish the knotting as shown in the video.
