Instructions

These instructions will make a finished bracelet just over 7". To lengthen or shorten the bracelet, simply adjust the number of amazonite beads.

1. Cut a piece of Opelon stretch cord about 1 foot long. Place a bead stopper 3-4 inches from one end of the cord.
2. Place a big eye needle on the free end of your cord. String 1 amazonite bead, 1 gold plated crystal rhinestone ball, 12 amazonite beads, 1 rhinestone ball, and 1 amazonite bead onto your cord.
3. Pull your needle through one side of the gold plated curved crystal cross bar and through the first inner hole.
4. Remove the bead stopper and thread the cord through the other end of the cross and through the remaining inner hole.
5. Tie your ends in a knot, pulling the cord snug but not too tight. Make sure your knot is nice and tight and trim the cord ends 1/8" from the knot.
