

Shanni Wrap Bracelet

Project B1095

Designer: Megan Milliken

A fluid piece of bead woven Delicas makes this double wrap bracelet a beautiful and unique piece. Hammered TierraCast components give the closure style.

Instructions

This bracelet measures about 13 inches long, and wraps twice around the wrist. To adjust the finished length, add or subtract the desired amount from the length of the woven piece.

1. Using smoke grey Fireline thread and a size 12 beading needle, begin a piece of flat even count peyote stitch flat even count peyote stitch ten beads wide using 11/0 Delicas. Leave an 8 - 10" tail at the beginning of your work. Use metallic bronze for the first and last stitch in each row and use emerald silk satin for the center of each row.

2. As you work, you will need to tie off and add new thread periodically.

3. When your woven piece measures about 12.25" long, attach a brass oxide finish pewter ribbon end to each end of the piece as demonstrated in this video.
4. Tie off and weave in your threads.
5. Use an antique brass 6mm, 18 gauge jump ring to attach a brass oxide finish pewter Z hook clasp to one of the ribbon end loops. Attach another jump ring to the other ribbon end loop.
6. To close, slide the open end of the Z hook clasp into the free jump ring.
