SKU: XTL-1054

Project uses 1 tube

Recommended Tools:

[XTL-5511] Beadsmith Jeweller's Micro Pliers Chain Nose Flat Nose

Instructions

1. You can see how to make this bracelet step by step by watching this video.
2. You'll need to bend the bezel openings on a Nunn Design collage bracelet out a little to accommodate the engraved cabochons. Test each cabochon where you want to place it first to make sure it doesn't already fit.
3. Use a pair of chain nose pliers to gently bend the bezel edges slightly outward. Continue to test the cabochons until they fit.
4. Apply some E6000 glue into the empty bezel settings. Make sure there is enough glue to make contact with the cabochons if they don't set all the way in, but not too much glue.
5. Place the cabochons into the bezel settings and allow to dry thoroughly before wearing.
