

# Baroque Bridal Cuff

## Project B2045

Designer: Kat Silvia

The Baroque Miyuki glass pearls and SWAROVSKI ELEMENTS crystals provide a beautiful backdrop for the star of this piece, the antiqued gold plated box clasp. This piece is perfect for a bride who is looking to add some vintage style glamour to her bridal look.

## What You'll Need

SKU: SWBI-14516

Project uses 180 pieces

Sterling Silver Crimp Beads 2 x 2mm (20)

SKU: FCR-01122

Project uses 12 pieces

Sterling Silver Crimp Bead Covers 3mm (20)

SKU: FCR-01000

Project uses 12 pieces

Antiqued Gold Plated 3-Strand Box Clasp Ornate Rectangle W/ Crystals 24.5x26.5mm

SKU: FCL-4935

Project uses 1 piece

Soft Flex Extreme Sterling Silver Plated Wire .019 In/30 Ft.

SKU: XCR-5293

Project uses 60 inches

### Recommended Tools:

[XTL-5608] Xuron 4 In 1 Crimping Pliers - Works On 1, 2 And 3mm Crimps!, [XTL-5600] Xuron Sharp Flush Cutter Pliers - Wire/Soft Flex, [XTL-3000] Bead Stopper- Stop Beads Sliding Off Stringing Material

## Instructions

These instructions are for a 7 1/2 inch bracelet. To adjust the length, simply add or subtract the number of pearls and crystals to each stand equally.

1. Begin by cutting 10 inches of beading wire. Place a bead stopper about 2 inches from one end.
2. Thread on: 1 Miyuki Baroque Pearl and 2 SWAROVSKI ELEMENTS Crystals (repeat 14 times) and then finish with 1 Pearl and 1 crimp tube.

3. Thread the wire through the first loop of the box clasp, and back through the crimp bead. Note: Because you will be threading two wires through each loop in the clasp, do not pull as snug as you normally would. Leave a small loop for the wire to move. Crimp the crimp tube.
4. Use a crimp cover over the crimped tube.
5. Move to the other side of this wire. Remove the bead stopper and thread on one crimp tube. Thread the wire through the first loop of the other side of the clasp, and back through the crimp bead. Leave a small loop for the wire to move. Crimp the crimp tube.
6. Use a crimp cover over the crimped tube.
7. You will repeat this process for five more strands. Note that strands 1 & 2 share the top loop of the clasp. Strands 3 & 4 share the middle loop, and strands 5 & 6 share the bottom loop of the clasp.
8. Once you have completed all six strands you are all done.
