Instructions

This project uses about four loops of memory wire. You can do less or more, however if you choose to do more you will need to purchase additional beads.

1. At one end of the memory wire, use your round nose pliers to make a simple loop that faces the outer rim of the memory wire coil.

2. To the other end of the memory wire thread on the beads in this order: two 4mm, one 6mm, one 8mm, and one 6mm. You will repeat this pattern 23 more times.

3. To the final end, make a simple loop. Open this loop, same as you would a jump ring and attach the loop of the awareness ribbon charm. Close the loop.

4. All done!
