SKU: XTL-1054

Project uses 1 piece

Recommended Tools:

[XTL-5700] Fiskars 5 Precision Tip Scissors - Super Sharp, [XTL-3000] Bead Stopper- Stop Beads Sliding Off Stringing Material

Instructions

These instructions will give you a stretchable bracelet approximately 7 - 8.5 inches.

1. Cut a piece of cord measuring about 24 inches. Place a bead stopper two inches from one end.

2. String on, in alternating order, one Swarovski crystal and one Beadelle spacer. Please see photo for reference.

3. Once you have strung on all 32 beads, remove the bead stopper.

4. Go back through the first bead you strung and follow the thread path all the way around the beads. This extra loop of stretch cord will help to hold the weight of the beads and make it stronger.

5. Once you are back to the start, take the two ends and tie an overhand knot bringing the two ends together. Add a dab of glue and tie a second knot to secure it in place.

6. Once the glue has dried, trim the cord and tuck in any remaining tails.

7. All done!
