## Instructions

You will also need a paper towel for this project.

1. To begin, place a dab of patina on to your work surface. With a paint brush dab the emerald patina onto the center of the charm getting it into the grooves of the raised tree portion. Wipe off excess patina quickly.
2. If you like, add more patina to build the color and wipe off any excess.
3. Cut off 5 inches of micro suede.
4. Thread the suede through the hole of the charm and around the bangle. Tie an overhand knot. If the length is too long you can trim the ends for your desired look.
5. All done!
