Instructions

These instructions will give you a bracelet that is 6.5" long with a chain extender to give you up to 8 inches in length. To adjust the size simply modify the length of ultra suede used.

1. Begin by cutting a strip of ultra suede 3/4 of an inch wide and 6 inches long.
2. Attach a ribbon crimp to each end.
3. Using your Hot FX tool, you will now place the Swarovski rhinestones to the ultra suede. You can follow along with my placement (see photo) or design your own. I suggest placing them before using the tool to secure them.
4. Open one jump ring and attach it to the loop of the lobster clasp and to one loop of the ribbon crimp. Close the jump ring.
5. Open another jump ring and attach it to the last link in the chain extender and to one loop of the second ribbon crimp. Close the jump ring.
