Instructions

This bracelet measures approximately 6.75". To adjust the length, simply modify the number of links used. Please note that for a longer bracelet you may want to purchase additional crystal links.

1. To begin, use your flush cutters to cut the jump rings in between the links of the Moroccan chain. Cut so that you have 8 large separated links.
2. Open one jump ring and attach one end of the magnetic clasp to one Moroccan chain link. Close the jump ring.
3. Continue by opening and closing jump rings to attach the links in the following order: 1 amethyst, 1 Moroccan link, 1 peridot, 1 Moroccan link; repeat twice followed by 1 more amethyst link and 1 Moroccan link.
4. Then open one more jump ring and attach the other side of the magnetic clasp to the final Moroccan link.
