Instructions

1. Begin by cutting off 2 loops of memory wire. This finished design will be about 1.5 loops, but to give yourself a little extra room if you want it larger it is best to cut off a little extra.
2. Make a simple wire loop on one end.
3. String on the beads in the following order: 1 silver bead, 3 wood beads, 1 silver bead, and 5 druzy beads. Repeat this pattern 4 times and then end with 1 silver bead, 3 wood beads and 1 silver bead.
4. Trim the wire so that you have about 1/4 of an inch.

5. Make a simple wire loop.
6. Open one jump ring and attach the charm to one loop of the bracelet. Close the jump ring.
