Tronex Tools, Smooth Bent Nose Pliers with Standard Handle and Tip Protector 5 Inches

Long, 1 Piece

Instructions

This bracelet measures approximately 6 inches. To modify the length, simply adjust the length woven respectively.

1. For complete instructions please watch our video: How to Make the Lizzie Honeycomb Bracelet. In this video you will see a similar technique, however this design uses Cymbal Bead Endings and Bead Substitutes.
2. At the beginning you will string on one ending, followed by one seed bead, three SuperDuos, one seed bead, one blue honeycomb bead, one seed bead, three SuperDuos, one seed bead, and tie a knot. Then continue the pattern seen in the video. Repeating this on the other side once you have your desired length.
3. The Substitutes will alternate as seen in the photo and will work in as though they are honeycomb beads. Please note there is a front and back to these beads so make sure they are all facing the same way.
4. Once you are done with the bead woven portion, tie off and weave in your tails.
5. Open one jump ring and attach it to one bead ending and to one end of the magnetic clasp. Close the jump ring and repeat on the other side of the bracelet.
