Instructions

This design is adjustable, please see helpful tips in the video. You will also need a scrap of wire or a toothpick for this project.

1. Please watch our video: How to Make an Adjustable Slider Bracelet with Snake Chain and Tassels. In this video you will see how to make this bracelet from start to finish as well as some sizing techniques and design tips. The only difference, is instead of the tassels you will use the jump rings to attach the Swarovski Crystals.

We recommend waiting at least 24 hours before wearing to allow the glue to fully set.
