Instructions

You will also need a scrap of wire for this project. This bracelet size is adjustable, please see video below for sizing instructions.

1. Please watch our video: How to Make An Adjustable Slider Clasp Bracelet. In this video you will size your chain and learn how to use the slider clasp.
2. To one end of the chain, open the jump ring on the charm and attach it to the last link in the chain.
3. To the other end of the chain, take one headpin and string on one pearl. Make a wrapped wire loop, but before completing the loop, attach it to the last link in the chain. Wrap the loop and trim any excess wire.
