## Instructions

1. Please watch our video: How to Do Odd-Count Peyote. From what you learned in the video, follow along with our Free PDF Pattern and weave the length of the bracelet. Note that the pattern can work out both ways to add rows to the beginning or end of the bracelet to weave to a specific color as seen in the next video. Because of this, the pattern shows both ends with "up" beads, which makes the attachment of the clasp easier.
2. Once you have achieved your desired length, please watch our video: How to Finish Peyote Bead Weaving with Loops and Beads. Note, that the clasp will add about a half an inch to the over all length.
3. Finally, tie off and weave in your threads.
