Instructions

1. Begin by cutting two strands of cord about 10 inches in length. Place a bead stopper about 2 inches the end of the cords. To the other ends, attach a big eye needle.
2. You will string both strands at the same time. To each strand string one seed bead, then on to both strands string one 2-Hole Rulla bead. Simply repeat this pattern.
3. This bracelet is easy to size, just continue until you have your desired length.
4. Once you have your length you will tie off and add a dab of glue as seen in our video: How to Secure a Stretch Cord Bracelet.
