SKU: DMRR-9155FR

Project uses 1 piece

Recommended Tools:

[XTL-5700] Fiskars 5 Precision Tip Scissors - Super Sharp

Instructions

You will also need a lighter for this project. Please use caution when using the lighter.

1. Begin by cutting 3 strands of white cord and 3 strands of pink cord, 18 inches each.
2. Then make an overhand knot four inches down from one end. Slide on three seed beads to each strand. Then make another overhand knot 4.5 inches from the other knot.
3. To see how to add the clasp please watch the end of our video: How to Make a Triple Strand Braid with Waxed Brazilian Cord. From what you learned in this video, add the sliding knot clasp over four strands. Trim at each knot so that each side has a pink and a white strand. Once you have added the clasp, finish off each strand with a tiny knot and seal with the lighter.
