Instructions

1. Begin by making a simple wire loop on one end of the memory wire facing in towards the center.

2. String on the beads in the following order: one gold bead, one 6mm bead, two 8mm beads, three 10mm beads, two 8mm beads, and one 6mm bead. Then repeat this pattern 12 times.

3. Once you have all the beads on the memory wire, use your memory wire cutters to trim the wire, leaving a tail of 1/2 inch. Then make another simple wire loop facing in towards the center.

4. Then open one jump ring and attach the charm to the loop at the end of the memory wire. Close the jump ring.
