Project uses 1 piece

Recommended Tools:

[XTL-4004] Beadsmith Magical Rhinestone Pick Up Tool With Cleaning Kit - Great For Placing Flatback Rhinestones

Instructions

If you would like to bend the cuff bracelet to adjust the size, be sure to do so before you begin. Bending the bracelet after it's been embellished could damage the embellishments.

1. Before you begin, watch the video on How To Use a Magical Pick.

2. Place a dab of Hyo Cement glue onto the outer corner (where your cuff begins) of one side of your cuff bracelet.

3. Using your Magical Pick, pick up one black SWAROVSKI ELEMENTS triangle rhinestone flatback and carefully place it with the pointy side down onto the glue.

4. Now, add another dab of glue next to the first flatback, and add another triangle rhinestone flatback. This time invert it so the point is facing up. This will allow your rhinestone flatbacks to sit closely next to one another. See photo for reference.

5. Continue adding dabs of glue onto your cuff and placing your rhinestone flatbacks on top remembering to switch over between the placement styles.

6. Allow all of the glue to dry thoroughly before wearing.
