Project uses 1 piece

G S Hypo Cement Precise Applicator Essential!

SKU: XTL-1001

Project uses 1 piece

Recommended Tools:

[XTL-5600] Xuron Sharp Flush Cutter Pliers - Wire/Soft Flex

Instructions

1. Using your flush cutters, cut a strip of Opaque Yellow cup chain that is 9 rhinestones long, a strip of Opaque Red cup chain that is 7 rhinestones long, and a strip of Turquoise cup chain that is 9 rhinestones long.
2. Next, while the bar on your bangle bracelet is still closed, add a thin line of Hypo Cement glue across the top portion. This is where your first strip of cup chain will go. See photo for placement assistance.
3. Carefully place your strip of Opaque Yellow cup chain onto the glue with the rhinestones facing up. Your strip should fit the length of the bar on your bracelet.
4. Add another thin line of Hypo Cement glue beneath that first strip of Yellow cup chain, and glue on your strip of Opaque Red cup chain, making sure to align your cup chain lengths so they are straight.
5. Add another thin line of glue and place your third strip of Turquoise cup chain onto it.
6. Set your bangle aside to dry, with the bar facing up.

7. Enjoy!
