SKU: XTL-1054  
Project uses 1 piece

### Specialized Tools

Beadsmith Jeweller's Micro Pliers Chain Nose Flat Nose

SKU: XTL-5511

### Instructions:

1. Begin by adding a dab of glue onto the center of your TierraCast rivoli setting. Place your SWAROVSKI ELEMENTS fancy stone onto the glue (with the faceted side up) and set aside to dry.
2. Next, using your chain nose pliers, open up a gold plated jump ring and slide on the loop from your TierraCast rivoli bezel setting. Before closing, slide it onto the bent wire loop on the left side of your bracelet and close.
3. Next, remove the jump ring that comes with your initial charm. Set it aside as you won't be needing it.
4. With your chain nose pliers, open up another jump ring and slide it through the hole on your initial charm.
5. Before closing the jump ring, slide it onto the top bar on the front side of your adjustable bangle and close. See photo for placement assistance.
6. That's it!

### Variations

Look through a variety of initial charms and choose the initials you would like for your project:

When substituting in items, pay attention to sizes and styles to make sure all your pieces will fit together.
