

My Classic Valentine Bracelet

Project B3083

Designer: Karlin Jones

Make this pretty in pink Valentine's Day accessory by adding faux pearl cabochons onto a flat memory wire bracelet. Finish it off with a sparkly crystal heart charm.

Round Nose Micro Pliers

Instructions

1. Before you begin, watch our instructional video: How to Use Beadalon Flat Memory Wire Glue on Pad Findings. This video will demonstrate how to use and attach the glue on pad findings.
2. Place a dab of glue onto the edges of a glue on pad finding, avoiding the hole. Press a pink faux pearl cabochon cab into place. Repeat with all of your findings, to give you a total of 34 pink pearl cabochons . Allow the glue to dry before continuing.
3. Use your round nose pliers to create a simple loop on one end of your memory wire. I like to have my loops roll up away from the inside.
4. Slide your findings onto the bracelet. Slide them all the way down to the loop.
5. When you've attached all 34 findings, cut your memory wire about 3/8" from the end and create another simple loop.
6. Lastly, using your chain nose pliers to open the jump ring that comes on your gold plated crystal charm and attach it onto the bottom loop and close.

7. That's it!
