Instructions

1. Before you begin, please watch the videos on [How To Use Crystal Clay](#) and [How to Make a Seed Bead and Crystal Clay Bangle](#) by Nunn Design. You will be doing a similar technique.
2. Following what you learned in the video, put on your gloves and make a gumball sized amount of white clay. Gently press into the channel of your bangle, without getting any clay on the outer edges.
3. Using your Magical Pick, begin embedding a nice variety of ss29 Swarovski crystal chatons in all 3 colors: Crystal Powder Rose, Crystal Powder Green and Crystal Powder Blue.
4. Once those are embedded, go ahead and place 72 White Alabaster chatons in between.

5. Once your bangle has all the chatons embedded the way you like, set it aside to cure over night.

6. You're done!
