SKU: FRC-074

Project uses 8 pieces

Eurotool Super New Glue - Heavy Duty Adhesive - 3 Gram Bottle

SKU: XTL-1059

Project uses 1 piece

### Instructions

The faux leather cord in this project measures 9". For a bracelet that is shorter or longer, simply adjust the cord length using a Regaliz cutter.

1. Before you begin, please watch these 2 videos: How to Make a Regaliz Braided Cork Cord Bracelet and How to Measure and Assemble a Regaliz Flat Cork Cord Bracelet.
2. Add a few drops of Super New Glue into the well of one half of your magnetic clasp. Gently take your pre-cut 9" length of cord, and place one end into the glue.
3. Next slide on the following spacers, following the design on my bracelet: 4 black O-rings, 1 antiqued silver tube spacer bead and another 4 black O-rings. See photo for placement assistance.
4. Lastly, add a few dabs of Super New Glue into the well of the second half of your magnetic clasp. Place the second end of your length of cord into the glue.
5. Allow the glue to dry before wearing. Enjoy!
