Beading Needles Assortment So Handy

## Instructions

Note: This bracelet pattern makes for a tight fitting cuff which is about 6 1/2 inches in circumference. Measure your wrist before you begin and add 12 rows of 11/0 Toho beads per half inch. So if you need to add an inch to the total length of the bracelet, you will need to add 24 rows of 11/0 Toho beads. Since there are 6 black stripes in the bracelet, you will need to add 4 additional rows to each stripe. Conversely, if you wish to make the cuff smaller, subtract rows. Just remember you want all your stripes to be of an even width, so what ever you do to one stripe, make sure to do it to all.
